Columbia Broadcasting System

oboler:
Dear Mr. Reis:

Phantom Mask is a professional honorary radio drama organization. It originated in 1933 at the University of Oklahoma, and is chartered for perpetual existence.

Ever since its incorporation, its founders and members have had in mind the idea of giving Phantom Mask national scope at some future time when it might be feasible. The constitution was set up with that aim in view. This is "that time."

Our program of broadening has swung into action, and we have become acutely conscious of a need for ~~national~~ sponsors --- people whose prominence in the field provides both inspiration and help for our future achievements. The National Council at a recent session selected six outstanding national figures in the field of radio drama. You were unanimously chosen as one of the six. We would feel deeply honored and very grateful if you could join with us in our endeavor. From such a vantage point we know you could be an inspiration and a help for the aspirants to a radio career.

We are not an organization for the promotion of financial matters. What we do want to promote is interest and the development of talent. If you feel that you can strengthen such promotion on the ~~camp~~ ^{campus} of the nation, please let us know. We will be happy to send further information and details.

to send prestige
Respectfully yours,

Mildred Turner, President
